GRANTED PATENTS

1. Chinese Patent: CHINA
   CN20128057431Composite
   Reusable Adhesives-2012
2. World Intellectual Property Organisation:
   WO2013093652A1Composite reusable adhesive-2013
3. Japan Patent J2014-546674
   Composite Reusable Adhesives-2014
4. US Patent: US9540546B2
   Composite reusable adhesive-
   2017
5. Indian Patent: 9540546
   Composite reusable adhesive-2017
6. Indian Patent: 338299
   Method of Fabricating Microporous Elastomer Thin Films with Controllable SurfacePore Morphology and Monomodal Pore Size Distributions-2020
7. Indian 375248
   An Antimicrobial Mask and a Valve Disposed Thereon- 2021
8. Indian Patent: 403376
   A washable and reusable facemask comprising PVDF composite nanofibers and a process for the synthesis of PVDF composite nanofibers - 2022
9. Indian Patent: 578151
   Newly designed chop saw metal cutting machine with control and protection over spark-splashing of high-speed particles, flame, and metal particulates- 2023
10. US Patent: PCT / IN2019 / 050834
    Capillary type multi-jet nozzle for fabricating high throughput nanofibers- 2024
